

Error: There are no buttons

Contributed by admin
Saturday, 29 November 2008

Symptoms:

At the forum has no buttons linke: New, Reply, Edit, etc.

Reasons :

1. Bad set the access permissions for the departments.
2. Unloaded local buttons for style.

RESOLUTION

1. Set the access permissions for the departments
2. Download buttons to your style:
 - * Prosilver
 - * Subsilver2
3. Upload them into a directory styles / name_of__style / imageset on the FTP server.
4. Go to the Panel Administrator Style &Arr; &Arr; &Arr; sets of images at prosilver/subsilver2 click on Refresh

If you use a different style than prosilver/subsilver2 are:

1. Duplicate a folder (styles / nazwa_stylu / imageset /) and change the name back up on the com (or en-x-theme, if you're using a translated version of the word)
2. Go to the Panel Administrator Style &Arr; &Arr; &Arr; sets of images in the name of your style, then click on Refresh
