

## Error: Output handler 'ob\_gzhandler' cannot be used twice

Contributed by admin  
Saturday, 29 November 2008

### Symptoms

Forum displays a message:

[phpBB Debug] PHP Notice: in file / xx / xxxx xxx.php on line: ob\_start () [ref.outcontrol]: output handler 'ob\_gzhandler' can not be used twice

### RESOLUTION

Run SQL:

```
UPDATE phpbb_config SET config_value = 0 WHERE config_name = 'gzip_compress';
```

Note!

After you follow these instructions do not forget to clear the cache!
